SUMMARY

Analytical BCCA graduate advancing expertise with an MCA in AI and Machine Learning. Combines a solid technical background in web technologies, databases (PHP, JavaScript, SQL), and data analytics with hands-on experience in product requirement definition, market analysis, and sprint planning. Proven leadership track record as a CDPC Coordinator and Core Committee Member, managing technical events and stakeholder communications. Seeking to leverage technical proficiency and data-centric analytical skills to bridge business strategy and technical execution as a Product Specialist.

EXPERIENCE

Product & Placement Coordinator CDPC Coordinator – MCA Program

09/2025 – Present | Nagpur, India

- Collaborated with cross-functional leadership and executive teams to streamline placement workflows and drive campus engagement.
- Gathered stakeholder requirements to formulate operational roadmaps, track key performance metrics, and optimize scheduling.

Higher Secondary Certificate (HSC)

Modern School | 07/2021 – 09/2022

CERTIFICATIONS

Advanced Data Analysis & Visualization with Copilot in Excel

Coursera | Ongoing

Data Analysis and Visualization Foundations

Coursera | 2026

AWS Generative AI & AI Agents with Bedrock

Coursera | 2026

Data Analytics with Python

NPTEL | 2026

SKILLS

• **Product Strategy & PRDs** • **User Stories & JIRA Sprints** • **Python (Pandas, NumPy, Scikit-Learn)** • **Data Analytics & Plotly** • **SQL & MySQL** • **HTML / CSS / JS / PHP** • **Market Research & UX** • **Copilot in Excel**

PROJECTS

Financial Intelligence & Transaction Analytics Pipeline

2026 | Python, Scikit-Learn, Pandas, Plotly

- Developed an end-to-end data pipeline to ingest, clean, and pre-process raw financial transaction datasets using Pandas and NumPy.
- Implemented K-Means Clustering to segment spending behaviors and classify transaction patterns into distinct user profiles.
- Built an AI-driven anomaly detection model to flag suspicious transactions leveraging statistical thresholds.
- Designed interactive visualizations using Plotly to chart spending distributions and financial trends.

Spotify Product Analysis

01/2026 – 03/2026 | Product Strategy Case Study

- Analyzed user acquisition, churn dynamics, and feature adoption gaps across Spotify's freemium and premium tiers.
- Formulated competitive positioning, pricing strategies, and tailored user engagement initiatives to boost retention.
- Authored comprehensive PRDs containing detailed user stories, wireframes, and JIRA sprint release plans.

QuizTrail

11/2024 – 03/2025 | Web Platform

- Built a database-driven quiz platform with user authentication, real-time score tracking, and automated performance analytics.

Flora Information Website

06/2024 – 09/2024 | Web Architecture

- Created a web platform with structured data handling and clean UI content organization.
